1. This game makes me want to be in a fantasy world!! 2. UO Fantasy pwnery!! I just love the aesthetics of it and the battle moves are nice. 3. It reminds me of RIFT! 4. Very good battles! PLAY THE GAME: 1. The armor skills at level 4 and 6 just felt so good. 2. I liked the transition between the regular battle and the boss. 3. I love this game! Definitely my favorite game of 2017. 4. The only drawback is the line between good and bad where we have to spend a lot of money and invest time in training in order to level up in a high level. 5. The appearance of the game is perfect as it has a nice UI and the high quality graphics and animation. RECOMMENDED WEAPON: 1. Switch your weapons a lot and maybe even with a weapon that is not optimal for you. 2. It is recommended to use weapons that have skill levels suited to your weapon. 3. If you keep on enjoying the update from the previous update of the game, please continue doing so! 4. Stats are calculated in the form of 9 + 6 + 8 + 6 + 9 + 7 + 7. 5. There are various types of weapon, each with a different type of damage output. BATTLE MAP: 1. It's really cool, just try to find the party members' positions. 2. It's really cool, it's such a shame that it's up to 8 versus 8. 3. It has intense battles. 4. Have fun! STORY BOARD SCAN: 1. Thumbs up, it really helped me to understand the surroundings and the story of the game. 2. It's very interesting and inspiring! The story about the boy who goes back to try to save his dead father and is sucked into a fantasy world is very touching and moving! 3. It's not very exciting or stimulating for my interest. 4. It's depressing that because the story was a bit thick, I got tired of it. 5. I like it, it's not very exciting. LATE GAME MATERIAL: 1 bff6bb2d33

What's new in Elden Ring:

The Eastern Lands Between

On the surface it is a normal town, but it's hidden in the tiny village on the isolated island of Kanachis. This town is actually a guild that is maintaining an uneasy balance with the political and cultural power of the Western kingdoms. It provides support to the emerging new economy of the city of Iwatodai and distributes important goods. The town was known as the original seat of life before the arrival of the colonists to this now-distant region.

As the Elden Kingdom is now ruled by the war party, the territorial power of the guild is becoming shorter and several members have left seeking to form their own guild. A youthful member, Kouizhi, has secretly been searching for the source of the town's good fortune. Since exploring the Land Between a little while ago, she has encountered mysterious artifacts that can infuse them with great power. Still intrigued by them, Kouizhi has been submitting her to the vigilance of the guild, but still hasn't gained their trust to any extent.

The Story starts with an unexpected encounter. Tsumui Tsu, the vice-governor of the Eastern Dominion is on a visit to Kanachis to recommend the governor to appropriately open up trade with The Luminescent Isles in the far east, and has invited Kouizhi and a few of her friends to this trip. Yuuki's classmate - Kouizhi's friend Yuuki Hinomura will be accompanying her.

We invite you to play the unique and tense story of the young members of this guild as they make their footsteps in the eastern lands beneath the Imperial Fort.
